

Profile

Experience in GIS and web based software development.

Experience with agile software development.

Experience with Visual Studio, Visual Studio Code, Linux Server, Windows Server, IIS, Apache, REST, PowerBI.

Experience with unit testing in web environments (Jasmine/Karma).

Experience with end user support over video conferencing, telephone, email and in person.

Programming Languages: TypeScript, Angular, JavaScript, C#, Python, PHP

Databases: SQL Server, MySQL, Microsoft Access

Experience

Software Development Supervisor	Canacre Ltd.	2018 – Present
<ul style="list-style-type: none">• Development planning, roadmap, scheduling• RFP/RFQ support for software proposals• Support non-development staff and clients• Reviewed end-user feedback and tracked issues through development• Web service designed and implementation (REST)• Web application security design and implementation• Junior software developer mentoring and support• Enterprise application relational database model design and implementation• SQL Server stored procedure, function and view design and implementation• Transformation of data design and implementation• SQL Server database maintenance• Successful release of enterprise-level software projects• Windows Server setup and maintenance• User interface design and implementation• Web application troubleshooting and problem solving• Unit test design and implementation		
Senior Software Developer	Polar Technology Solutions/ Polar Geomatic Solutions LP	2010 - 2017

- Development planning, roadmap, scheduling
- Web service designed and implementation (REST)
- Web application security design and implementation
- Enterprise application relational database model design and implementation
- SQL Server stored procedure, function and view design and implementation
- Transformation of data design and implementation
- SQL Server database maintenance
- ArcSDE database maintenance
- Successful release of enterprise-level software projects
- Estimated development hours for various projects
- SVN Server maintenance
- Windows Server (2008-2012) setup and maintenance
- User interface design and implementation

- Web application troubleshooting and problem solving
- Code migration through different languages (Flash to JavaScript)
- Interoperability between different web languages (Flash to JavaScript & JavaScript to Flash)
- Unit test design and implementation

Software Developer/Technical Support	Zeuter Development Corporation	1999 - 2010
---	---------------------------------------	--------------------

- Graphic design
- Client support in person, over the phone and via email.
- Performed maintenance on RedHat Linux based servers
- Performed maintenance on various Windows based computers (Windows 3.1-Vista)
- Performed maintenance on various Apple computers (Mac OS 7.1-10.6)
- Bulletin board software design and implementation
- Customer usage tracking software design and implementation
- Ad management software design and implementation
- RSS content aggregator design and implementation
- MySQL database maintenance
- Windows network management
- Large scale wireless network implementation
- Performed hardware modifications to various clients' computer

Professional Proficiencies

- ESRI Software (ArcGIS Server, ArcMap, ArcCatalog)
- Visual Studio
- Visual Studio Code
- TypeScript
- Angular
- JavaScript (NodeJS/Prototype/JQuery/AngularJS/dojo)
- SQL Server
- MySQL
- Apache
- Linux
- Agile Software Development
- Microsoft Access
- .NET/.NET Core (C#)
- IIS
- REST/SOAP Services

Interests

Computers, music, hiking
